

MENTOR TRAINING FOR BASIC, CLINICAL & TRANSLATIONAL RESEARCHERS

WINTER 2022 WORKSHOP SERIES

The Entering Mentoring seminar, developed by the Wisconsin Program for Scientific Teaching at the University of Wisconsin - Madison, engages research mentors in activities that develop effective mentoring practices. This workshop is an adaptation of that original curriculum for clinical and translational researchers.

These **FREE** workshops are intended for the mentors of biomedical researchers across career stages, including undergraduates, graduate, and medical students, postdocs, and junior faculty colleagues.

Space is limited.

Dates

December 12-14, 2022
1:30-3:00 PM
